

"Real education consists in drawing the best out of yourself!" – Mahatma Gandhi

VINH NGUYỄN

Math Teacher

Teaching since 2016

Certificates:

Bachelor of Science in Economics, University of Nottingham (UK);

Master of Science in Risk Management, London School of Economics (UK);

Qualified to teach

Mathematics all levels;

Test Prep;

Success Cases

The Vinh studied IB Math since September 2016. The Vinh's problem solving skills, analytical skills and organizational skills have improved significantly throughout the semesters. He has been able to present the answers logically, and clearly. Thanks to his hard-working and willing to learn manner, in the recent SAT Math sample tests Vinh took in March 2017, he achieved his best score of 750/800. This is considered as a remarkable result from an initial score of 600/800 Vinh got 2 months ago in December 2016.
